Environmental Policy

SMS excels in designing, producing and servicing equipment for the Oil & Gas and related industries. We are committed to the management of the potential and actual environmental impacts resulting from our activities; our aim is for continuous improvement and prevention of pollution in those activities.

- We will develop and improve environmentally sound processes and techniques, using the most up to date products and services within all aspects of our business paying particular attention to;
 - Reduction of waste materials sent to landfill
 - Reduction of power consumption
 - Reduction of the use of natural resources
 - Control of by-products being released into the environment
- The Management of the company is committed to ensure expectations of stakeholders are consistently met by ensuring the availability of adequate resources and implementing and maintaining an environmental management system which meets the requirements of BS EN ISO 14001. The management will also regularly monitor the effectiveness of this policy and ensure continual improvement through internal environmental system audits, analysis of non-conformances and management reviews.
- We will encourage employees through communication and training programmes to be committed and involved in our environmental goals and targets
- The company is committed to comply with all applicable legal requirements and approved codes of practices, and where possible exceed these standards

This policy will be communicated to all personnel through induction training, on-going Quality, Health & Safety and Environmental awareness training, staff briefings, the company intranet and notice boards.

This company policy has the full support and commitment of the Board of Directors and will be regularly reviewed for its continuing suitability during planned management review meetings.
